

ABOUT FLORENCE

EDITION 1.0

Florence is a beautiful, lacy, and versatile lounge bra that will completely transform your lingerie drawer. It is partly constructed of stretch lace to minimize cutting time and allow you to focus on learning new lingerie skills. Florence will teach you to create adjustable straps, install lingerie elastic, and insert underwire.

The bra can be modified several ways to allow for additional support. You can create an easy lounge bra perfect for working from home, or for running errands. It can work as a sleep bra or under a yoga top. If you want more support, add channeling and underwire for a bra that is wonderful for everyday use. No matter what the level of support, you can stitch up multiple bras in different lace and fabric combinations in just under three hours. Then start creating lovely matching lingerie sets with *Geneva* panties from *Seamwork* Issue No. 3!
